PETERSBURG, Va., August 5.—A most horrible affair occurred here this evening about half past 5 o'clock, in which John W. Green, a commission merchant in the city, and W. F. Lee, of Littleton, N. C., were both killed. Green had just returned from Richmond on the 4 o'clock train, and going to Jarrett's Hotel, was introduced to Lee, who had arrived but a few minutes before the main train from the South. Lee had been drinking very heavily, and Green was also very much intoxicated. Lee asked Green to take a drink with him, and on Green refusing, replied very insultingly. Green retorted by calling him a son of a —, and then both men went out for the purpose of settling the matter. Opposite the hotel is Tappay & Steel's foundry, to the yard of which the men repaired. Arriving there Lee slapped Green three times, which Green bore without resenting. On being slapped the fourth time Green drew his pistol and shot Lee. Lee, after being shot, jumped upon Green and stabbed him in the throat. Lee lived about five minutes after stabbing Green. Green died a few minutes after Lee. Appended is the most important testimony elicited before the coroner's inquest held this evening. The most direct testimony bearing upon the case is from Messrs. J. W. Talifero and A. B. Bently. Bently testified as follows: Green and I were standing at the bar talking. Mr. Lee was in the bar-supper. I sent him two or three drinks there. About one of the drinks there was some misunderstanding. He would not pay for it. He came into the bar and I asked him for the money, but he would not pay it. Mr. Green asked him why he did not pay for it. I replied, "Never mind, I will let him have it." Mr. Lee said: "Introduce me to your friend Green." I did this, when Lee asked Green to take a drink with him. Green refused, when Lee insulted Green. Green called him a damn son of a —, and said I will break every bone in your body." I told them they could have no fuss in the bar-room, when they both went out, Lee going ahead, Mr. Green following. They both seemed to be intoxicated, but not so as might possibly have been made. The Republicans regard him as no means the strongest man, his greenback proclivities and alleged opposition to the negro schools rendering his record very vulnerable. All, however, recognize him as a gentleman of fine talents and a brilliant speaker.

Richmond will send straightforward delegates to the Republican Convention at Lynchburg on the 10th instant. The news received yesterday indicates we hold that the Lynchburg Convention will place a Republican ticket in the field on a debt-paying platform. Nearly all the delegates from which there are no competing delegations send straightforward Republicans. From many of the countries which holds have occurred in convention election of two sets of delegates was nearly nominal, for in nearly every instance the straightforward outnumbered the Radicals, and held the regular organization. The bolters will not be recognized.

Destructive Storm in Minnesota.

ST. Paul, August 5.—A severe storm swept over this section last evening and extended as far as Menomonie in Wisconsin. The greatest damage done was in Minneapolis. For a time it really appeared as if the city was to be overwhelmed by the elements. It is impossible to estimate the damage done in the hue of the storm as the wires in every direction are wrecked.

LATEST FOREIGN NEWS.

The Infernal Machines—Bradlaugh Prefers the Charge of Assault Against the Police.

ATLANTA, August 5.—This morning, by Dr. Curry, general agent of the British Consulate, a dispute a dispute from United States Minister Lowell informed Earl Granville, Foreign Secretary, that he had wired Secretary Baines on the 2d of July an account of his conversation with Lord Tenterden respecting the infernal machines at Liverpool, to which he had received a reply from the British, State, and municipal authorities are seriously endeavoring to discover the authors of the plot, which he has reason to believe that very few men were engaged, and that no

pains would be spared at discovering and prosecuting them. Mr. Bradlaugh did not appear at Westminster to day. He appeared at the Bow-Street Police Court and presented an information upon which he demanded a summons against the police for assault, which had been committed upon him. The magistrate ruled that the suit was insufficient, and that Mr. Bradlaugh appeared to have invited the assault, and that he should have refused the summons if all the facts were before him, and certainly should do so on what appeared on information. Mr. Bradlaugh intends to proceed further by mandamus.

Gambetta Eulogizes Grey.

TORONTO, August 5.—At a banquet last night, M. Gambetta, replying to a toast to President Grey, warmly eulogized the latter, and said he regretted the Legislature had not by adopting the *Servit De List* afforded opportunity of consulting the Democratic party in a broader and deeper manner than at present. M. Gambetta declared himself a partisan of the existence of the two chambers, in spite of the faults committed by the Senate, but he desired to see the two houses united by one spirit. He considered it his duty to defend before the country the tory existence of the Senate, and only to endeavor to modify the electoral system from which it derived its origin. It was necessary, he said, to introduce into the mode of nominating senators the principle of proportional equality of communities, and he asked himself the question whether the irremovable of senators was not contrary to principles of universal suffrage, remarking the first irreducible senators were appointed by the National Assembly, whereas those chosen are elected by the Senate. He urged that they should have to submit to reelection by a Committee of the two houses. By this means the Republican majority might obtain the ballot and stability it at present lacked, and if the revision of the Constitution is restricted to this point a majority might be found in the Senate willing to pass it.
